

From the Board of Directors:

As 2011 comes to a close, the Board would like to thank everyone for their cooperation and interest in allowing our community to improve its appearance and functions. This has been a year of significant achievement with the accomplishment of the following programs/projects:

1. A pool solar heating system was researched, competed, funded and installed to significantly reduce our pool and spa heating costs.
2. The pool deck was repaired and resurfaced to almost new appearance, worn out pool chairs re-webbed or replaced and new tables added.
3. Security lights were installed on the clubhouse.
4. Palm trees were trimmed and dead shrubs and trees replaced throughout the complex.
5. Sprinkler systems were overhauled and are now functioning properly.
6. Weed control and insect spraying have been put on a bimonthly basis.
7. Dead grass has been removed and sod installed where needed with more to follow.
8. Tennis court repairs and resurfacing have been approved and funded.
9. Road seal coating has been approved and funded.

We are happy to note that with all these accomplishments we still managed to stay under budget for the fiscal year to date.

Happy Holidays to all.
